11. 다음 글의 요지로 가장 적절한 것은?

It is the mark of a rational person to support her beliefs with adequate proof, especially when the beliefs are of a controversial nature. For example, when someone asserts that China will soon overtake the United States as the dominant country in the world, this assertion should be met with the challenge, "Why do you say such a thing?" The person's reasons may be either strong or weak, but you will not know until you have asked the question and identified the reasons. If the answer is "because I think so," you should be dissatisfied with the argument because the "reason" is a mere statement of the conclusion. However, if the answer is evidence concerning the projected military and educational expenditures of the two countries, you will consider such evidence when you evaluate the conclusion.

- ③ The reverse is also true
- ④ This trend makes men conflict with women

13. 다음 글에 드러난 Liz의 심경 변화로 가장 적절한 것은?

Over the sky a plump black cloud moved, erasing the stars. At that moment, Liz heard a stealthy step far to her left and immediately froze. She slowly released her knees and straightened her head, the better to hear. The movement stopped, and after a long moment began again. Liz saw a dark figure creep into the open and draw near to the trees. The figure stood so still and low to the ground that it might have been a stump. She called softly, "Tim!" Hearing an answering whistle, she went toward her son and, with tears of delight, hugged him tightly.

14. 다음 글의 제목으로 가장 적절한 것은?

Some species seem to have a stronger influence than others on their ecosystem. Take away the sea stars along the northwest coast of the United States, for instance, and the ecosystem changes dramatically; in the absence of these sea stars, their favorite prey, mussels, takes over and makes it hard for other species that used to live there. Sea stars are known as keystone species, because as top predators they determine ecosystem structure by their eating habits. If you chop down an aspen tree by a beaver pond, not much will happen; but if you take away a beaver, a wetland might dry out, changing the kinds of plants that live there and the animals that rely on them. Because beavers exert their influence by physically altering the landscape, they are known as ecosystem engineers.

- ① Ways of cultivating ecosystem engineers
- ② Altering the ecosystem along the U.S. coasts

I was pleased to receive your letter requesting a letter of reference for a Future Leaders scholarship. As your physics teacher, I can certainly speak highly of your academic abilities. Your grades have consistently been A's and B's in my class. Since this is the first semester that I have had you in class, however, I do not feel that I am the right person to provide information on your leadership skills. I would encourage you to request a reference letter from those teachers with whom you have had the most opportunity to demonstrate those skills. I am sure many teachers would be willing to provide letters for you. Good luck with your scholarship.
